Subject: [JIRA] Commented: (OPS-1843) Quantify MIT Abuse Cases

[[http://\[REDACTED\]](http://[REDACTED])]

[REDACTED] commented on OPS-1843:

As an FYI

re: this event - [REDACTED] was seeing about 50 MB/s in network usage just form this event.

re: last event - After shutting off a single IP, the scraper switched IPs and started over two times.

We will happily provide the information gathered from this event so that we can avoid any issues in the future.
