[REDACTED] commented on OPS-1845:

[REDACTED],

This is completed.

Are you still sending the 18/8 network to [REDACTED] only?

Thanks.

> [REDACTED] is asking that the MIT range be restored. [REDACTED] asked that we take a metered approach and ease them back in if we can. I realize the whole Class A range is blocked at the firewall, but if we could enable the IPs not involved in this latest incident (aka, leave the Class C range suspended) that would be ideal in my estimation. Please advise.
