Subject: [JIRA] Commented: (OPS-1845) Restore MIT IP Addresses

commented on OPS-1845:

---------------

did say he pinned them to Princeton - not sure the method. Can you check the logs to see if there is traffic to those servers from 18.x.x.x?

I realize the whole Class A range is blocked at the firewall, but if we could enable the IPs not involved in this latest incident (aka, leave the Class C range suspended) that would be ideal in my estimation. Please advise.
