Subject: [JIRA] Commented: (OPS-1845) Restore MIT IP Addresses

[http://ithaka.org]

commented on OPS-1845:
_____________________________________________________

Based on the latest conversation with MIT, here are the steps:

1) Work with MIT to add/ensure access to their proxy
2) create an Ad directed to MIT that will alert users to go to the proxy and sign in
3) Remove all but the proxy IPs from MIT's access range

> Restore MIT IP Addresses
> ------------------------
> Key: OPS-1845
> URL: [http://ithaka.org]
> Project: Operations
> Issue Type: Task
> Reporter: [thaka.org]
> Assignee: [thaka.org]
> Priority: Urgent
> [thaka.org] is asking that the MIT range be restored. [thaka.org] asked that we take a metered approach and ease them back in if we can. I realize the whole Class A range is blocked at the firewall, but if we could enable the IPs not involved in this latest incident (aka, leave the Class C range suspended) that would be ideal in my estimation. Please advise.
