Hi Steve,

We are still checking on this – the answer appears to be yes re our ***back issue*** content, but there may be other naming conventions for other types of content (e.g., “current issues”). Our folks are following up on this and should have an answer for you by the end of the day.

Am I correct that the naming convention for the .pdf files of your digitized journal articles is to use either a 5-8 digit number or a 4-7 digit number followed by the letter “x”?
